As India moves towards the Viksit Bharat 2047, the availability of robust, reliable and timely statistics becomes the key point in evidence-based policy formulation and timely intervention. The AISHE remains the vital source of information to provide the necessary input both at national and international forum in the field of higher education and to measure our journey so far, and the distance yet to be covered to realise the national goal of Viksit Bharat by 2047.

I congratulate the Department of Higher Education for bringing out this Report and also appreciate the dedicated efforts of the officers of the Statistics Division involved in conducting the AISHE 2023-24 and analysing the data meticulously. I also extend my gratitude to all State Governments as well as Higher Education institutions (HEIs) for their involvement and valuable support in completing this survey successfully.

I am confident that this Report will serve as a ready reckoner for policy makers, academicians, research fraternity, international organisations, and all other stakeholders involved in the education sector.

Message

In the era of rapid transformation, not only because of the changes taking place in the higher education scenario due to the implementation of National Education policy 2020, but also due to the changes taken place globally through technology, innovation and digitalization, data-driven policy is the need of the hour. The All-India Survey on Higher Education (AISHE), conducted by the Ministry of Education, provides the most comprehensive statistics on various facets of higher education in the country. Initiated in 2011, over the years, the AISHE has become the most trusted source of comprehensive statistics on the higher education scenario in India.

I am delighted that the Report of the AISHE 2023-24 is being released. Like its previous rounds, the AISHE 2023-24 was conducted throughout the India geographically covering all eligible Higher Education institutions (HEIs), be it University, Colleges or Stand-alone Institutions. The extensive data collected is thoroughly presented in this report. Furthermore, it offers first-hand insights into the advancements and implementation of the National Education Policy (NEP) 2020.

I would like to extend my sincere appreciation to all those involved in the planning and execution of the survey as well as analysis of data and preparation of this report, especially the officers and staff of the Statistics Division, under the leadership of Ms. Navanita Gogoi, Deputy Director General (D/o Higher Education). I also place on record my appreciation towards the AISHE State Units for their contribution and support throughout the conduct of AISHE 2023-24. My sincere gratitude also goes to all HEIs for taking part in the survey and contribute immensely towards this comprehensive exercise. Their commitment to advancing higher education in India is both commendable and inspiring. I would also like to complement the NIC team for providing backend support and technical assistance, which ensured the smooth execution of the survey in a record time.

The survey has meticulously gathered and analysed data from HEIs on various parameters such as teachers, student enrolment, programs, examination results, education finance, and infrastructure. However, the participation in AISHE is voluntary, and the data is self-reported by the HEIs via AISHE web portal. Though the Ministry does the due diligence, through inbuilt validations and scrutiny checks, the quality of data is generally taken care of by the respective HEIs.

I am sure this Report will play a pivotal role in effective policy making and will be appreciated by policymakers, academicians, research fraternity, international organizations, and all other stakeholders involved in the education sector.

PREFACE

The Report of the All-India Survey on Higher Education (AISHE) serves as a strategic input not only for evidence-based policy formulation but also to monitor the progress India's journey in the field of higher education, nationally as well as for global parameters like SDGs and other such statistics compiled by OECD, UNESCO etc. Initiated in 2011, the survey covers all Higher Education Institutions (HEIs) in the country engaged in imparting higher education and provides comprehensive statistics. Key indicators of educational development such as Institution Density, Gross Enrolment Ratio, Pupil Teacher Ratio, Gender Parity Index, etc. are calculated from the data collected through AISHE.

Institutions covered under AISHE are classified in three broad categories: **University and University Level Institutions** (Institutions which are empowered to award degree under some Act of Parliament or State Legislature), **Colleges** (Institutions which are not empowered to provide degree in its own name and therefore are affiliated/recognized with Universities) and **Stand-alone Institutions** (Institutions outside the purview of University & Colleges, generally running Diploma or PG Diploma level programmes). The reference period for the AISHE 2023-24 was academic year 2023-24 and the survey was conducted using Web DCF (Data capture Format) through the dedicated portal (http://aishe.gov.in) developed with the help of National Informatics Centre (NIC), our technical partner.

This Report consists of three Chapters, viz Introduction (Chapter-I), Analysis (Chapter-II) and Time series data analysis (Chapter-III). The Introduction covers all relevant aspects of the conduct of the AISHE such as data fields, partner agencies, mode of survey, coverage of AISHE, use of AISHE Data, etc. It also gives a glimpse on the historical background as well as the scenario of higher education statistics prior to AISHE.

The Chapter-II of the Report provides detailed analysis on number of institutions, student enrolment, Gross Enrolment Ratio (GER) in higher education (18-23 Years), Gender Parity Index (GPI), teaching position, non-teaching staff, out-turn, progress of National Education Policy (NEP) etc.

Chapter-III of the Report is focused on time series data analysis. The trend of various key parameters of AISHE over the years are presented here through data visualization in addition to the supportive texts, highlighting important points.

The Report also contains Key Results of the AISHE 2023-24, Concepts and Definitions used, State/UT wise tables on various data fields as well as Methodology and Estimation procedure.

I extend my sincere thanks to the Secretary, Department of Higher Education for his continuous support, guidance and encouragement at each and every stage of the survey till finalization & analysis of data and writing of this Report. I also acknowledge the contribution of NIC Team who has been our technical partner since the inception of AISHE. My special appreciation goes to my team, all officers & staff of this Division for relentlessly working towards success of each and every round of AISHE, ensuring that the data quality & coverage of AISHE reaches a greater height with each round. Last but not the least, I wish to put on record the contribution of HEIs without whose participation the survey could not have been conducted and the State Nodal Officers for coordinating, monitoring and encouraging the HEIs, especially during the survey with continuous support.

I am confident that this AISHE Report will fulfill its purpose to serve as the main source of comprehensive statistics on the higher education scenario in the country. Any suggestion for improvement of this publication will be highly appreciated.

EXECUTIVE SUMMARY

The All-India Survey on Higher Education (AISHE) 2023–24, conducted by the Ministry of Education, is the 14th such survey on the Higher Education landscape in India. The survey serves as the primary and most reliable data base for policy formulation, planning, monitoring, and evaluation of higher education initiatives at both national and state levels. The survey covers all institutions imparting Higher Education in the country, subject to their onboarding on the AISHE portal and participation in the data collection exercise. For AISHE 2023–24 survey, a total of 64,756 Higher Education Institutions (HEIs) including universities, colleges, and standalone institutions became part of the frame. Of these, 59,553 institutions participated in the survey, resulting in a response rate of approximately 92%, reflecting the strong institutional engagement of AISHE.

This report presents a comprehensive assessment of the status of Higher Education in the country for the Academic Year 2023–24. It provides detailed information on the number of Higher Education Institutions (HEIs) in the country, including category-wise and management-wise distribution of institutions. It also covers student enrolment data across various dimensions, such as mode of study (Regular, Distance, Private, Online) level of study, gender-wise and category-wise enrolment, type of institution-wise enrolment, and foreign students enrolled in Indian institutions during the academic year. Further, the report includes designation-wise and category-wise number of teaching staff, and non-teaching staff. It also presents data on infrastructure and facilities in HEIs, including hostels and other institutional amenities.

Based on the data collected from HEIs, key performance indicators such as the Gross Enrolment Ratio (GER), Gender Parity Index (GPI), and Pupil-Teacher Ratio (PTR) have been calculated and presented in the report. In addition, this report also provides a comparative analysis of key parameters over the last five years, highlighting trends and changes in institutional growth, enrolment patterns, faculty strength, and infrastructure development during the period leading up to AY 2023–24.

The AISHE 2023–24 reveals sustained growth in the higher education ecosystem, with a total of 59,553 participating HEIs comprising 1,278 universities, 46,468 colleges, and 11,787 standalone institutions. Student enrolment reached 4.50 crores, marking a 17% increase from 2019-20. Maximum enrolment is reported in Undergraduate programmes with 76.8% of total enrolment (3.5 crore students), followed by postgraduate (12.9%) and diploma/certificate levels (7.4%). Female student enrolment accounts for 49.7% of the total enrolment (2.2 crore).

Scheduled Castes (SC), Scheduled Tribes (ST), and Other Backward Classes (OBC) students comprise 15.5%, 6.4%, and 40.1% of total enrolment, respectively, wherein the categories are actual social categories of the students, not their admission category.

GER, i.e., the total enrolment expressed as a percentage of the eligible population (18-23 years), at all India Level, is 30.0. For male students, GER is 28.9 and for female students, it is 31.2. The GPI, i.e., the ratio of female GER to male GER, at all India level is 1.08. It is 1.11 for SC category and 1.08 for ST category. The GPI has crossed 1 since 2017-18, i.e., female GER has surpassed male GER since 2017-18 and it continues.

Total strength of teachers at all India level is 17.3 lakh, with a Pupil-Teacher Ratio (PTR) of 22 for regular mode of study. 55.1% of teachers are male and 44.9% are female.
Overall, the survey results underscores India's continued progress towards an equitable, inclusive, and expanding higher education system, while also highlighting areas requiring targeted policy intervention to improve quality, regional balance, and institutional capacity.

Chapter I
INTRODUCTION

1.1 BACKGROUND

Higher education plays a very important role in the growth and progress of human individually as well as society as a whole, being the crucial bridge between the formal education and the labor market. It is the quality of higher education, which ultimately shapes the path of economic development of a nation. With India moving towards becoming a knowledge economy, more and more young Indians are likely to aspire for higher education. Considering the importance of higher education, the Seventh Schedule of the Constitution of India also stress upon the *"Co-ordination and determination of standards in institutions for higher education or research and scientific and technical institutions".*

Accurate and timely data is indispensable for effective policymaking—whether in understanding policy gap, identifying problems, designing effective solutions, allocating limited resources optimally, ensuring accountability, monitoring progress, or drafting future roadmaps. In the era of data driven policy making, with the advent of technologies like Artificial Intelligence and Machine Learning, data has become the most essential input for rolling out any project or policy. Moreover, with the launch of the National Education Policy of India 2020 (NEP 2020) with the aim to create a more holistic, flexible, and multidisciplinary approach, it has become the need of the hour to have timely and accurate higher education statistics at a much granular level, to track the progress of its various new age features.

1.2 HIGHER EDUCATION STATITICS PRIOR TO ALL INDIA SURVEY ON HIGHER EDUCATION (AISHE)

Prior to AISHE, there was no system of regular data collection covering all Higher Education Institutions (HEIs) in the country. Only limited and aggregated data was available on ad-hoc basis from a couple of sources as under:

i) **Third All India Educational Survey (AIES) :** All India Educational Surveys were a series of large-scale, periodic surveys conducted mostly by the National Council of Educational Research and Training(NCERT). The Third AIES was the first extensive survey, where the data on higher education, technical and vocational education, educational administration and culture was collected. The work related to higher education was entrusted to the University Grant Commission (UGC). The date of reference for collection of data was 31st December, 1973.

ii) **Publications of M/o Education (MoE), the then M/o Human Resource Development (MHRD):** The Ministry used to disseminate information on Higher Education through its publications such as (i) "**Education in India"** which has got

several volumes,(ii) **"Selected Education Statistics"** (an annual publication) which was provisional in nature. These publications were not available regularly and the information compiled was mostly of aggregate nature.

iii) **Various publications and Reports of UGC:** Especially during the period prior to AISHE, UGC was one of the key contributors in Higher Education Statistics through its Annual Reports. In addition, UGC also brought out some ad-hoc reports occasionally. Two of such important ad-hoc reports were (i) **"Higher Education in India: Issues, Concerns and New Directions"**, a compilation of outcome of a number of seminars and discussion initiated nationwide by the UGC as part of their Golden Jubilee initiatives during the Year, 2003 and (ii) "**Higher Education in India : Strategies and Schemes during eleventh plan period (2007-2012) for universities and colleges"** which was the compilation of information generated from several studies conducted by UGC to prepare a report on Approach and Strategy for higher education for the Eleventh Plan.

As evident from above, information on higher education at disaggregated level was very limited, with no regular data availability. Aggregated data was available with a time lag of years and that was also not available category-wise.

1.3 LAUNCH OF ALL INDIA SURVEY ON HIGHER EDUCATION

Considering the need for regular flow of comprehensive, timely and quality data on higher education for effective policy formulation, the Government of India initiated the All-India Survey on Higher Education (AISHE) in 2013, during which data for the academic year 2010-11 was collected. The entire survey was conducted through electronic mode and a dedicated portal http://aishe.gov.in was developed for this purpose.

Considering the immense utility of the survey for providing comprehensive data, the AISHE was continued over the years on an annual basis under plan scheme "*Higher Education Statistics & Public Information System (HESPIS)"* which was approved in XIIth Five Year Plan. The scheme has been extended for continuation up to 2025-26 by the Standing Finance Committee (SFC) 2021. Today AISHE is the single source of comprehensive statistics on the higher education scenario of the country.

1.4 KEY STAKEHOLDERS OF AISHE

Statistics Bureau, D/o Higher Education, Ministry of Education is involved in conduct of the AISHE at the Centre assisted by National Informatics Centre (NIC) in software development, portal handling and support from several regulatory authorities such as UGC, AICTE, various Councils etc.

AISHE **State Nodal Officer (SNO)** designated in each State are involved in coordination and

monitoring of the survey work within their State/UTs. Most of the States have nominated Director/DS level officers of State Higher/ Technical Education Department as SNO. A few of the SNOs are Professors or equivalent at the University level institutions. The University Nodal Officers (UNO) of Central/State Public Universities co-ordinates and monitors its affiliated/constituents' colleges for the survey. List of State Nodal Officers is at Annexure-3.

Institute Nodal Officers(INO) designated at each registered Higher Education Institutions (HEIs) are involved in submitting the input for the survey.

1.5 COVERAGE OF AISHE

Geographically, AISHE is conducted throughout the country covering all States and UTs. Institution wise, the Institutions under AISHE are classified in following 3 broad categories:

i) **University and University Level Institutions:** The Institutions which are empowered to award degree under some Act of Parliament or State Legislature.

ii) **Colleges/Institutions** which are not empowered to provide degree in its own name and therefore are affiliated/recognized with Universities. Such institution can be of three types, viz **(a) Colleges**, **(b) Off- Campus/ PG Centre** and **(c) Recognized Centre**

College means any institution, whether known as such or by any other name which provides for a course of study for obtaining any qualification from a University and which, in accordance with the rules and regulations of such university, is recognized as competent to provide for such course of study and present students undergoing such course of study for the examination for the award of such qualification. These are the institutions established or maintained by or admitted to the privileges of the University.

Colleges are generally of two types:

(1) **Constituent College** is an integral part of the university, functioning under its direct administrative and academic control and maintained by the university.

(2) **Affiliated College** is an educational institution that operates with administrative and financial independence but is formally associated with one or more universities for the purpose of conferment of degree in respect of programmes being run in the college.

Off- Campus/ PG Centre is a Centre of the University established by it, outside the main campus (within or outside the state) operated and maintained as its constituent unit, having the university's compliment of facilities, faculty and staff.

A **Recognized Centre** is an institution attached with the university for the purpose of awarding degree in respect of programmes being run in these institutions, e.g. Army Cadet College Wing, Indian Military Academy, Dehradun is not affiliated with any university but the degree in respect of Programmes run in the institute are awarded by the Jawaharlal Nehru university.

iii) Stand-alone Institutions Institutions outside the purview of University & Colleges, generally running Diploma or PG Diploma level programmes. During the survey, following 9 types of such Institutions have been covered.

a) Technical Institutes such as Polytechnics recognized by All India Council for Technical Education (AICTE)/State Directorate of Technical Education etc.
b) Teacher Training Institutes recognized by National Council for Teacher Education (NCTE)/State Council for Educational Research & Training (SCERT) etc.
c) Nursing Institutes recognized by Indian Nursing Council/State Nursing Council.
d) Institutes under Ministries are directly managed by various Central Government Ministries/Departments.
e) Post Graduate Diploma in Management (PGDM) Institutes recognized by All India Council for Technical Education (AICTE).
f) Paramedical Institutes recognized by Paramedical Council of India/State Paramedical Council etc.
g) Hotel Management & Catering Institutes recognized by National Council for Hotel Management & Catering Technology (NCHMCT), NOIDA
h) Pharmacy Institutions recognized by the Pharmacy Council of India (PCI) and affiliated to the concerned University/State Government, as applicable.
i) Institutions under the Rehabilitation Council of India (RCI) recognized by the Rehabilitation Council of India (RCI) for conducting rehabilitation, special education, and disability-related professional courses.

(All the Terms, Concepts and Definitions used in the survey are at **Annexure-I**)

1.6 LIST OF HIGHER EDUCATION INSTITUTIONS

The most important requirement for the Survey is the Frame or exhaustive list of Higher Education Institutions in the country, for coverage. In the initial years, the list of institutions was prepared by consulting State Government Departments, Ministries and Institutions. However, later on, the mechanism of registration in AISHE portal is used for the purpose and the eligible institutions are getting registered in AISHE. While Institutions already registered during previous years automatically become part of the Frame, the new list is updated through new registrations.

For the purpose of AISHE, "Higher Education" is defined as the education, which is obtained "*after completing 12 years of schooling or equivalent and is of the duration of at least nine months*

(full time)" or "*after completing 10 years of schooling and is of the duration of at least 3 years*". The education may be of the nature of General, Vocational, Professional or Technical education All HEIs involved in imparting Higher Education as mentioned above are eligible to be part of the survey.

For taking part in the survey, the eligible HEIs first need to register in the AISHE portal. After registration, the institutions are provided with an AISHE Code, which is a unique code. Institutions already registered with AISHE during previous years automatically become part of the Frame.

In addition to new registrations, the following are done through Registration Module:

- Affiliation and De-affiliation of Colleges, which maintain the identity of the college even after shifting from one University to other.
- Upgradation of colleges to University.
- Activation and In-activation of Stand-Alone Institutions, and upgradation of Stand-Alone Institution to College.
- Updating the Institution Type, Name, State and District, on Request of Institutions.

The mechanism adopted to update the list of institutions are: -

- List of Universities through State Governments, Central Ministries, UGC and self-disclosure by the Universities, which is to be verified by the Act of the University.
- List of Colleges through Universities.
- List of Stand-Alone Institutions through respective Councils, State Governments and Central Ministries.

1.7 MODE OF SURVEY

Unlike traditional survey, in AISHE, data is submitted by the HEIs voluntarily without involvement of enumerator designated/sent to collect information. The data collection of the survey is in online mode, through the dedicated portal (http://aishe.gov.in). From AISHE 2020-21 onwards, the platform of data uploading has been upgraded from Adobe PDF Format of upload to completely Web based data entry by HEIs (Web DCF format).

1.8 TRAINING WORKSHOP

The AISHE Web DCF has been evolving continuously and it undergo changes almost in each round of AISHE to accommodate new data points as per the changes taking place in the higher education scenario of the country from time to time. Moreover, the Institute Nodal Officers (INO) who are involved in submission of filled in Web DCF also changes at times due to change of posting/superannuation etc. Hence, at the launch of every round of AISHE, the Department of Higher Education (DoHE) conducts sensitization- cum- training workshop at National and

State level for accurate and timely data submission in AISHE. These State level workshops are conducted at both offline and online mode. In addition, the SNOs are also required to conduct sensitization- cum- training workshop at below State level.

1.9 USES OF AISHE DATA

Over the years, the AISHE has assumed critical importance, as it is the only comprehensive source of Higher Education Statistics, in which valuable data on various aspects is collected from Higher Education Institutions in the country.
Use of data collected through AISHE :

a. AISHE data serves as a crucial resource for data driven policy formulation, monitoring progress of different policy interventions, research, and institutional planning in the higher education sector.

b. Input for estimating key indicators like Gross Enrolment Ratio (GER), Gender Parity Index (GPI), Pupil Teacher Ratio (PTR) etc.

c. Supplying data pertaining to higher education for various data needs at national level by various Ministries/Departments, issues raised in Parliament, State government sand other such stakeholders.

d. Supplying data pertaining to higher education for monitoring Sustainable Development Goal(SDG 4) and other such global indices.

e. Use of AISHE data through API by other stakeholders/initiatives such as :

- National Scholarship Portal
- States Scholarship Portal of various States
- PM Gati Shakti Portal
- PM-USHA Portal
- PRAYAS Portal
- ONOS Portal
- Study-in-India Portal
- Samarth Portal
- NAAC Portal
- ABC Portal
- NAD Portal
- NICE Portal
- NTF – Mental Health Portal
- Visvesvaraya Ph.D Scheme Portal

f. Registration of HEIs in AISHE is mandatory for many important initiatives like One Nation

One Subscription (ONOS), National Scholarship Portal (NSP), Rashtriya Uchchatar Shiksha Abhiyan(RUSA) and PM Vidyalakshmi to name a few.

KEY POINTS : AISHE 2023-24

1.10 REFERENCE PERIOD FOR AISHE 2023-24

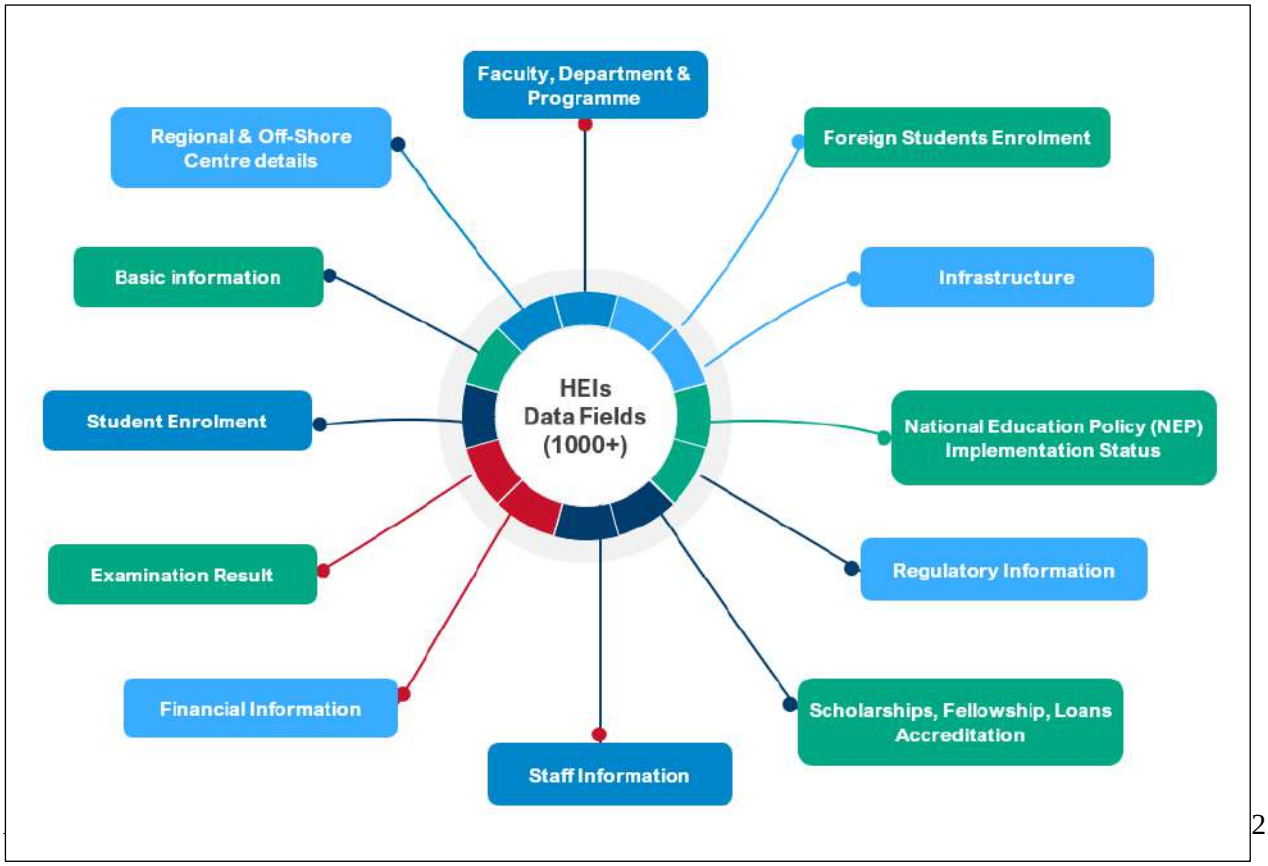
The Reference period for the AISHE 2023-24 was the academic year (AY) 2023-24. i.e., the student enrolment reported by HEIs pertains to the AY 2023-24. However, for teachers' data, their actual number as on 31st December 2023 was collected. The Information in respect of Examination Result was collected for students who graduated or were awarded degrees in the past academic year (i.e., result of last year students in AY 2022-23). Financial Information has also been recorded for the previous financial year i.e., 1st April 2022 to 31st March 2023.

1.11 DURATION OF THE AISHE 2023-24

The Survey was held between 27th November, 2024 till June 15th, 2025. Thereafter, scrutiny process was started and the discrepancies found in various parameters like Enrolment, Teacher's data were taken up with the concerned institutions for clarification/correction.

1.12 DATA FIELDS

Under AISHE 2023-24, information has been collected from more than 1000 data fields covering wide range of parameters:



1.13 INSTITUTION RESPONSE UNDER AISHE 2023-24

Out of the total 1,289 Universities, 48,246 Colleges and 15,221 Stand Alone Institution as registered in AISHE 2023-24, 1,278- Universities, 46,468 - Colleges and 11,787 – Standalone Institutions have uploaded the data on the AISHE portal. In addition to the actual responses, for those institutions who have not uploaded the data but have responded during any of previous two years i.e. (2022-23 or 2023-24), the latest available information was repeated/pooled. (The details of the Methodology and Estimation are at **Annexure-II**). Hence, the results are actually based on responses from a larger number of institutions, as below: -

Box 1:
Registered Number of Institutions with their data uploading response

Details	Universities/University Level Institutions	Colleges	Stand alone Institutions
Listed for AISHE 2023-24	1289	48426	15221
Actual Response in AISHE 2023-24	1249 (96.9%)	44380 (92.0%)	10513 (69.1%)
Total number of Institutions after pooling data from AISHE 2021-22 and AISHE 2022-23	1278 (99.1%)	46468 (96.0%)	11787 (77.4%)

1.14 LIMITATIONS OF THE SURVEY:

1. As AISHE survey is based on response from registered HEIs in AISHE, some of the institutions might not have onboarded on AISHE even though they have established before AISHE 23-24 survey.

2. Participation of Higher Education Institutions (HEIs) in the survey is voluntary, so complete responses from all HEIs cannot be ensured. To address non-responses, the DoHE employs statistical methods, such as pooling data from previous years and estimation based on responses from participating institutions.

3. DoHE does not employ any data collectors to collect information from HEIs. Instead, information is submitted directly by the Nodal Officers designated by the HEIs themselves (typically teaching faculty). Hence, the responsibility for accuracy of data lies with the Nodal officers from the HEIs. However, DoHE does data verification validation to the extent possible through inbuilt validations and scrutiny checks.

AISHE being a survey, any limitations inherent to large scale surveys might affect the outcome of the AISHE slightly.

1.15 OUTLINE OF THE REPORT

The Chapter-II of the report provides detailed analysis on number of institutions, student enrolment, Gross Enrolment Ratio (GER) in higher education (18-23 Years), Gender Parity Index (GPI), teaching position, non-teaching staff, out-turn (based on actual response), progress on National Education Policy (NEP) in universities and infrastructure for institution.
Chapter-III of the report is focused on time series data analysis. The trend of number of Higher Educational Institutions registered with AISHE, growth in student enrolment, enrolment at Ph.D. level, enrolment at university level, trend in Programme-wise enrolment at various modes of Education, Foreign Students, trend in Gross Enrolment Ratio (GER), growth in number of Teachers and trend in Pupil Teacher Ration have been analyzed for last five academic years. The trend analysis have been presented separately for Universities / University level Institutions and Colleges, Level wise (like Under Graduate/ Post Graduate/ Ph.D., separately for Female Enrolment, Social Category-wise (ST/ SC/OBC) and also for Regular Mode and Distance Mode.

The report also contains AISHE 2023-24: Key Results. Important results are also placed in Figures and Boxes amongst their respective analysis for referencing. Detailed analytical tables are also included in the Report.

Concepts and Definitions, Methodology and Estimation as well as list of Officers Involved in AISHE 2023-24 from the Statistics Division (DoHE) and State Nodal Officers and University Nodal Officers involved in the conduct of the survey are placed in the Annexures.

2.3. GROSS ENROLMENT RATIO IN HIGHER EDUCATION (18-23 Years)

The Gross Enrolment Ratio (GER) in Higher Education for the age group 18-23 years in India is 30.0. For Scheduled Castes and for Scheduled Tribes, the GER is 27.8 and 22.8 respectively.

GER is a key indicator of the level of participation in higher education within a given population. Higher GER values indicate greater enrolment in higher education among the specified age group. GER for AISHE 23-24 has been calculated on Population Projection derived from 2011 Census.

GER for male and female at All India level is 28.9 and 31.2 respectively. GER for SC male is 26.4 and SC female is 29.3. GER for ST male is 21.9 and ST female is 23.7. Figure 29 shows the graphic illustration of GER for different social categories.

The States with highest GER are Tamil Nadu (52.3), Delhi (53.0), Uttarakhand (48.5), Telangana (46.6), Himachal Pradesh (46.4), Sikkim (42.5) and Karnataka (41.9). State/UT wise GER for

different social group categories is presented at Table 19 in Appendix A.

Figure 29: Gross Enrolment Ratio (GER) (Social Categories and Gender-wise)

METHODOLOGY AND ESTIMATION

A: METHODOLOGICAL NOTE FOR TACKLING NON-RESPONSE CASES IN AISHE 2023-24

Sl. No.	Type of non-response	Estimation procedure
1.	**Unit non-response**	
1.1.	Institutions (Colleges, Universities and Standalone institutions) which have not given any information in any of the blocks.	If the unit has responded in at least one of the two preceding years (e.g., in 2021-22 or 2022-23), the latest available information of that unit is repeated in current survey year (e.g., in 2023-24). [Pooling of Data]
1.2.	Excluding the above, affiliated colleges of a university which has not responded in current survey year (e.g., in 2023-24) and data of the college for two earlier years (e.g., in 2021-22 or 2022-23) are also not available.	While doing estimation, the colleges with enrolment greater than 3000 were excluded. At State-District-University level, for each non-responding college, the average enrolment of the responding colleges was repeated. This was done only for Post Graduate and Under Graduate level programs.
2.	**Item non-response**	
	The Institution (College/ University/ Standalone) has filled other modules but mis-reported/uploaded enrolment as NIL	If the unit has reported enrolment during the previous survey (i.e., 2022-23), the latest available information of that unit is repeated in current survey year (e.g., in 2023-24).

Note: The steps related to item non-response have been introduced from AISHE 2020-21.

B. ENROLMENT ESTIMATION PROCEDURE

Enrolment for Graduate and Postgraduate has been estimated only for affiliated and constituent colleges based on stratified sampling technique. Post-Stratification has been done, after the survey for the year 2023-24 is closed.

Affiliated and constituent Colleges have been divided into two strata; one is Large College and other Small college. Large Colleges are those, which have enrolment of 3000 or more and the remaining are Small colleges. In absence of a priori information, it has been assumed that all large colleges have uploaded the data i.e. in the population the number of large colleges is equal to the

number of such colleges that have uploaded web-DCF. Thus, we have avoided over estimation of enrolment of colleges. Average enrolment at a particular Level for the colleges of a particular University has been taken to estimate the enrolment of all colleges of that University. The Estimation formula is given below.

Estimated enrolment at lth Level for kth Type of college in ith State,

$$E_{ikl} = \sum_{j=1}^{u_i} \frac{N_{ijk}}{n_{ijk}} \sum_{c=1}^{n_{ijk}} e_{ijklc} \text{ , i = 1,2,……, 36}$$

where, e_{ijklc}= Enrolment in cth College at lth Level in kth Type in jth University in ith State,

n_{ijk} = Number of responding colleges of kth Type in jth University in ith State,

N_{ijk} = Total number of colleges of kth Type in jth University in ith State,

u_i = number of University in ith State,

k = 1, 2, 3 & 4 ; 1, 2, 3 & 4 stands for Affiliated college, Constituent college, PG/Off-Campus Centre &Recognised Centre respectively,

For, k=2,3,4,$n_{ijk} = N_{ijk}$

l = 1, 2, ….. 8 ; 1, 2, 3, 4, 5, 6, 7 & 8 stands for Ph.D., M.Phil, Post Graduate, Under Graduate, PG Diploma, Diploma, Certificate & Integrated respectively.

Total Estimated enrolment at lth Level

$$E_l = \sum_{i=1}^{36} \sum_{k=1}^{4} E_{ikl}$$

Estimation to be made for those Levels, for which sufficient response has been received. Where, Coefficient of Variation is high and n_{ijk} is small, no estimation is proposed.

When response within University is less than 10%, (n_{ijk}/N_{ijk} < 0.10), the following assumption is made:

$$\frac{1}{n_{ijk}} \sum_{c=1}^{n_{ijk}} e_{ijklc} = \frac{1}{\sum_{j=1}^{u_i} n_{ijk}} \sum_{j=1}^{u_i} \sum_{c=1}^{n_{ijk}} e_{ijklc}$$
